AGORA 2023

Brussels, Belgium

2-4 June 2023

Climate and Environment: Challenges for Hospitals and Healthcare Services

Participants

- Healthcare professionals
- Healthcare managers
- Researchers, decision makers in healthcare and other health stakeholders

Conference Objectives

- To discuss the challenges hospitals and healthcare services pose for the climate and the environment;
- To understand different approaches in monitoring this impact in European countries;
- To exchange practical experiences on how healthcare organisations are reducing this impact.
